- 6 Standard Seat Colors
- *Unlimited Color Matching

*Minimum quantity of 500 units may be required for special colors.

Legacy™ 807 Height H-Frame Tablet Arm Chair

Frame: All-tubular design, 1" diameter, 18-gauge steel. The "H-frame" is designed with parallel tubing running from front to back of chair. Front legs of the chair and back support are one continuous tube. Rear legs and seat support are also one continuous tube. Tubing is multiple arc welded at four locations where leg rails and back posts are parallel to each other with a minimum combined total of at least 1-1/2 feet of total weld, and is done so that the welds are not exposed. Wallsaver designed. Frame is chrome plated after all welding is complete.

Tablet Arm: 1" diameter, 16-gauge tubular steel, arc welded together to form a "Y-shape" giving the top support in all directions. Support is multiple arc welded to the outside of the front legs and 360° welded to the chair back post.

Standard Chrome Finish: Chrome is comprised of metal layers(Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel-it will not scratch. Our product is chromed on plateable quality tubing after all welding is completed to prevent rusting on unfinished welds.

Glides: Nylon or steel, your choice. Swivel design, case hardened steel, super silent deep ferrule. All glides make full level contact with floor. Designed so the maximum swivel angle of the glide is not violated.

Seat & Back: 5/8" thick posture contoured solid molded thermoset plastic with smooth molded edges and permanent color throughout thickness. Seat size is 16" wide x 15-1/2" deep on the 17-1/2" chair, and 14" x 13-1/2" on all other chair heights. Back size is 14" wide x 6-1/2" high on all chair heights. Both seat and back are attached through punched holes in tubular frame using self-tapping screws into four uniformly drilled holes.

Tablet Arm Top: Solid molded thermoset plastic. 14" x 19-3/4" x 26-1/4" with smooth molded edges and permanent color throughout thickness. Pencil groove. Tablet arm is attached to tubular frame with four plated loops and self-tapping screws into eight uniformly drilled holes.

Tablet Arm Top Colors: Available in standard Beige, optional Grey, Charcoal, Oak, and Walnut.

Seat Colors: Available in standard Blue, Beige, Burgundy, Teal, Grey, or Black. Optional Red, Cocoa, Gold, Orange, Charcoal, Hunter Green, Mauve, Plum, Cranberry, Green, Brown, and Walnut.

Warranty:

- Limited lifetime frame warranty
- Eight year thermoset plastic warranty
- Two year finish/wearing parts warranty
